

A healthy decision

Sandoz, a global leader in the rapidly growing generics industry, is a company in which doctors, pharmacists and patients worldwide have placed their trust for more than 100 years. With our 23 000-plus employees in more than 130 countries, we save and improve lives by developing, producing and distributing high-quality, affordable pharmaceuticals. Choosing Sandoz is always "a healthy decision". Through our work and our medicines, we have committed ourselves to improving the quality of life of people the world over. Our future holds many opportunities. Let's explore them together!

For our Austrian affiliate and largest center of competence in development and manufacture with 2,800 employees we offer the position as

Specialist Protein Analytics

Biopharmaceuticals Operations/Technical Development, Sandoz GmbH, Kundl

During your completed Ph.D. study in (bio)chemistry, biotechnology, -physics or pharmacy you had the possibility to collect experience in analytical chemistry, preferably in HPLC and electrophoresis methods and ideally you have qualified knowledge in protein - and bioanalytics. Project oriented thinking leadership skills and high social competences, especially open communication and team orientation are part of your personality. Because of the international orientation of our company excellent english skills are obligatory.

Areas of Responsibility

- Project related responsibility for 1-4 employees
- Development, validation and application of analytical methods for USP and DSP process development, analytical characterisation and release of biotechnologically derived biopharmaceutical proteins (Methods: HPLC, Capillary- and Gel-Electrophoresis, ELISA,...)
- Cooperation in international project teams in the development of Biopharmaceuticals
- Evaluation, testing and implementation of new technologies (NTs)
- Evaluation and documentation of study results according to cGMP-Guidelines
- Coordination and performance of analytical technology transfers with internal and external partners

If you like to actively support our department in Kundl/Tyrol within a challenging team environment, we would be delighted to meet you. We are looking forward to receiving your complete application via our BrassRing Novartis Recruiting System which can be found under the internet address www.sandoz.at (Job ID: 58816BR).
